

Adoption Policy

Thank you for your interest in saving a Doberman's life through our 100% volunteer organization. If you see a Doberman that interests you please email Michele Marie for an application at dobermanrescuegr@gmail.com and write *Adoption Application* in the subject box. If we do not have a Doberman in rescue that interests you, please let us know what you're looking for.

The adoption fee for any of our Dobermans is \$275. Our continued success depends on donations for our rescues and the generous contributions of others.

All rescues are immediately assessed by veterinarians and treated for any medical needs that are found. The vet expenses generally far exceed the adoption donations, yet are necessary and will continue as long as Dobermans need rescuing.

All rescues are spayed or neutered, chipped, receive all vaccinations and are maintained on heart worm and flea preventatives unless their veterinarian advises it would be detrimental to their health.

THE PROCESS

Adoption Application

The adoption application is a serious tool used in the process of re-homing this often misunderstood breed. Please take the time to answer each question fully. Submitting an application does not commit you to an adoption or us to adopting to you.

Vet Check

We will call your veterinarian for a reference so please be sure to provide their contact information when completing your application. We feel this is a necessary step to ensure the future care of placed Dobermans.

Home Inspection

A volunteer will visit your home to ensure its suitability for the Doberman you have chosen.

Once a Doberman is placed with you, if at any time you are unable to keep the Doberman, it is a requirement of the Rescue to return the Doberman to the rescue. We require this to ensure that they have a forever home, and we give a lifetime commitment to any dog we rescue.
